Exploring and Honoring Our Pre-birth Choices

Designed for those who have already done the bulk of their emotional healing, this workshop provides participants with an opportunity to view pre-birth choices from their soul's perspective.

This intensive will help you to:

- * Come to a deeper understanding of how the challenges you have faced in this life-time are related to your sacred contracts.
- * Release all vestiges of victimization from your past.
- * Gain awareness into why you have chosen your particular family and what their role has been in your soul's development.
- * Learn more about why you have chosen your geography, gender and generation.
- * Clarify and embrace your life's larger purpose.

If you are ready to see the larger picture, if you are feeling generally empowered in your life, and if you hold the world view that our souls choose the circumstances of each incarnation, I invite you to join me on
